

## USING FAVOURITES LISTS

---

Favourites Lists are lists of your favourite channels. You can create and modify the lists yourself, adding and removing channels as you wish. When you make a Favourites List active, the **Program Guide** displays only the channels in that list.

**Note:** The ALL CHAN Favourites List contains all the channels. You cannot make any changes to this list. If you want the **Program Guide** to display all the available channels, set ALL CHAN as the active Favourites List.

- You can tune the receiver to a channel whether or not that channel is on the active Favourites List by entering the channel number using the remote control number pad buttons.
- If you choose a program using **Theme Categories**, the receiver tunes to the channel for that program whether or not that channel is on the active Favourites List. However, if the program has not started yet, the receiver displays information about the program but does not change to the channel on which the program is to be shown.

You can create up to four different Favourites Lists, each including up to 30 channels. Each Favourites List is indicated by a slightly different colour in the **Program Guide**. You can give each list a unique name, such as **Mom, Dad, Junior**, etc. When you first get the receiver, the four lists are named **LIST 1, LIST 2, LIST 3, and LIST 4**. The lists are empty until you add channels to them.
